

## Sika joins European Photovoltaic Industry Association (EPIA)

To be even more on the pulse of happening in the photovoltaic industry and to be more involved, Sika has now joined the European Photovoltaic Industry Association. With this participation Sika is strengthen its position to take part in shaping European policies for the European PV industry but with relevance to the PV industry worldwide. Next to this policy driven involvements Sika will be active in the EPIA workshops and fortify its PV network within the EPIA Members Group.

The European Photovoltaic Industry Association (EPIA) is the world's largest industry association devoted to the solar photovoltaic (PV) electricity market. The association aims to promote PV at national and European levels and to assist its members in their business development in the European Union. EPIA secretariat is located in the "Renewable Energy House". In the heart of the European area in Brussels, this building gathers all associations involved in renewable energy.

**Sika AG** is a globally integrated company supplying specialty chemicals and application knowledge. We are present with more than 120 production and marketing subsidiaries in over 70 countries with 13'500 employees.
