BUILDING TRUST

# LEADING SOLUTIONS, DESIGNED AND TESTED FOR MAXIMUM EFFICIENCY

When using SikaTack® ELITE, you can rely on Sika's expertise and knowledge as OEM supplier and world leader in windshield adhesives. At Sika we are committed to keep the installation process simple and to deliver an additional safety margin for you and your customer.

## CURED TO OEM LEVEL

Having just a short Safe Drive-Away Time (SDAT) isn't the definition of a safe system. Vehicle manufacturers apply stricter standards for releasing a vehicle back into operation than the average auto glass shop. SikaTack® ELITE meets all the relevant standards of the OEMs, quicker than any other solution.

SikaTack® ELITE is based on Sika's PowerCure technology and cures independently of the climate from the inside of the bead. It cures to a level specified by vehicle manufacturers, reinforcing the car body structure to the original level within just 60 minutes, whereas one-component products can require up to weeks depending on the climate.

## YOUR BENEFITS

- Comebacks can be repaired instantly without risk of soiling car interiors or long waiting time for vehicle owner
- Vehicle can be used without any special restrictions like speed limits, bumpy roads, car testing or curb side parking
- Insurance and subcontracting work is done meeting all OEM standards
- Vehicle is returned to its original shape within minutes
- Car safety sensors can be calibrated instantly and permanently
- Tested for reliability and durability

Our most current General Sales Conditions shall apply.
