BUILDING TRUST

CONDOMINIUM MERIN HILL, BEOGRAD

PROJECT DESCRIPTION

Location: Maksima Gorkog st., Beograd

Construction year: 2018- 2021

Gross construction area: 19,255 sqm.

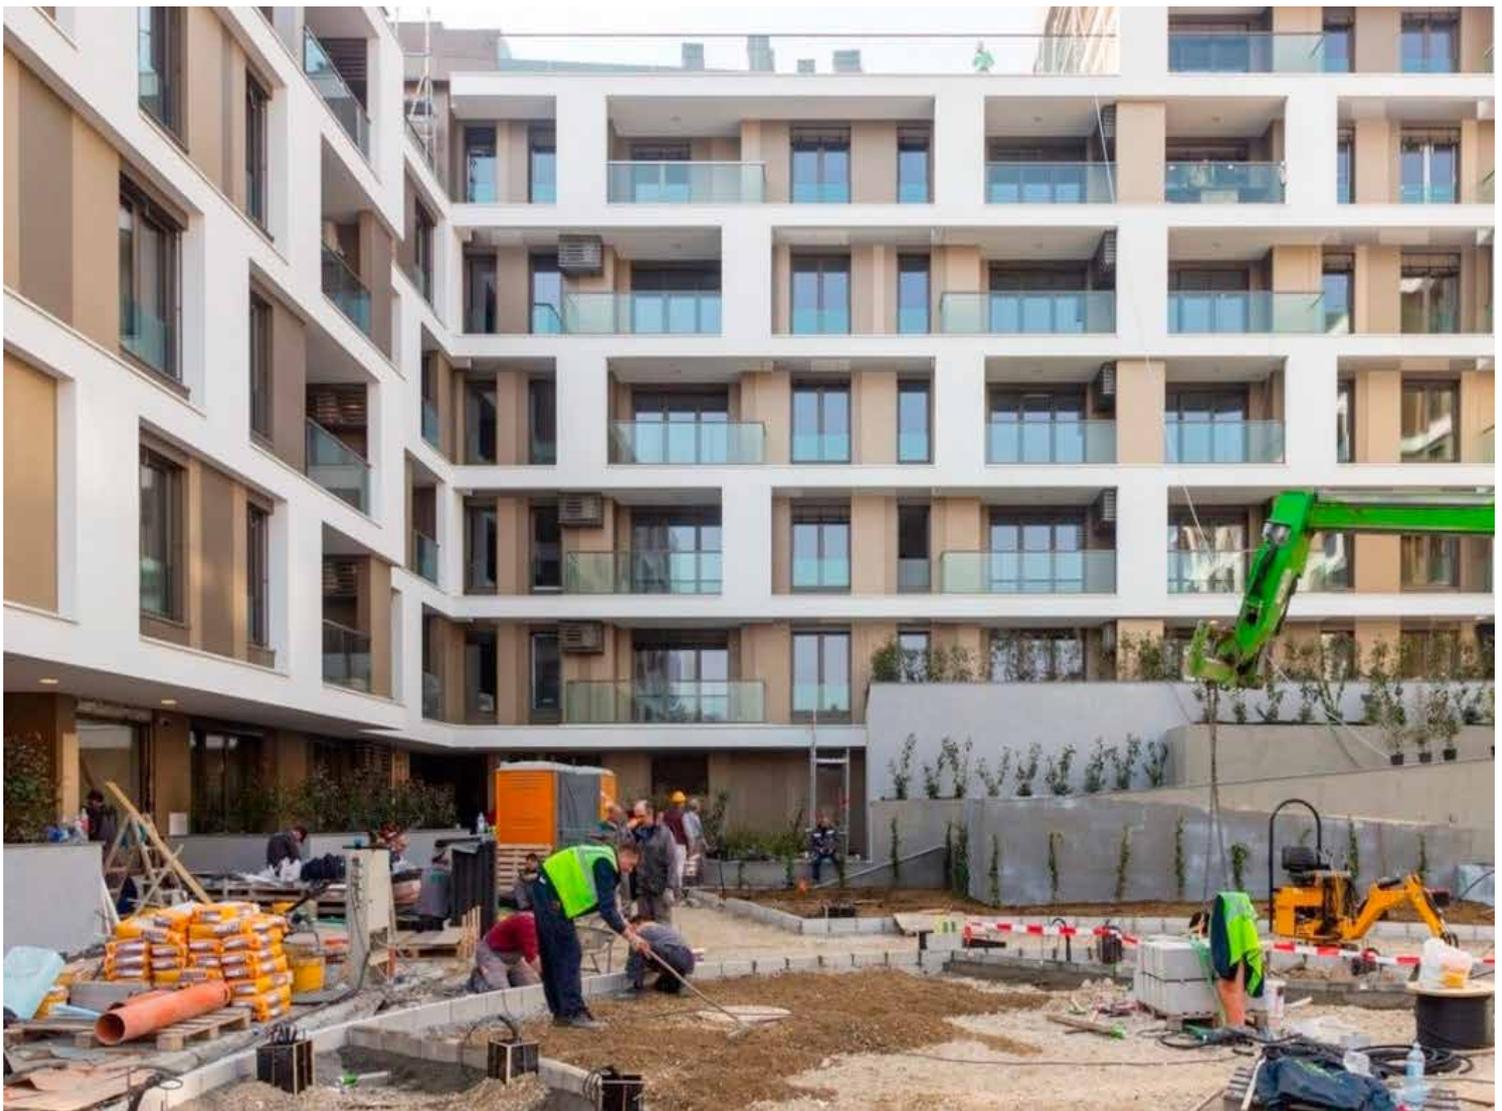

Modern luxury residential complex in condominium style. Located near Belgrade city center on Leka Hill, also known as Pasha Hill, Merin Hill is positioned in a quiet location offering a sense of privacy. The complex houses 184 residential units, an underground carpark as well as 6 commercial shops on the ground floor.

PROJECT REQUIREMENTS

High standards of materials, systems and technical support required on the construction site, daily communication with engineers and subcontractors.

SIKA SOLUTIONS

- Fire safe Sika ThermoCoat® ETICS systems with incombustible mineral wool insulation and state-of-the-art Silicate finishing render
- Sika MonoTop® concrete repair mortars
- Sikalastic® Polyurea roofing system
- Sealing & Bonding products
