BUILDING TRUST

SikaSeal®-175 Bath & Tiles

HIGH QUALITY MOLD RESISTANT NEUTRAL ALKOXY SILICONE

BENEFITS / CHARACTERISTICS

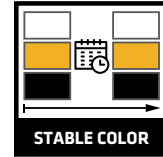

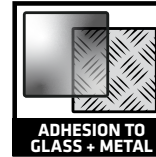

- Very low VOC emissions
- Very good resistance to UV exposure and weathering
- Very good elasticity and flexibility: $\pm 25\%$
- Non-corrosive, no odor
- Resistant to temperatures between -40°C to $+100^{\circ}\text{C}$

APPROVALS / CERTIFICATES

- GEV Emicode EC1^{PLUS}
- CE marking: EN 15651-3

COLORS

Anthracite, ash, bahama beige, dark grey, elite brown, elite grey, graphite, havana, jasmin, jura beige, manhattan, platin, sand grey, silver grey, transparent, white

USES

- Suitable for sealing joints in bathrooms, showers and other humid areas
- It contains special fungicide for use in applications which require long term resistance to mold growth
- Very good adhesion without a primer on most construction materials and substrates such as glass, ceramic and tiles, clinker, aluminum, steel and wood

EXAMPLES OF USE

- Sealing joints in sanitary facilities around bathtubs, showers, toilets and sinks, joints in domestic kitchens
