EISGREISSLER ICE-CREAM PRODUCTION IN KRUMBACH, AUSTRIA

FLOORING: Sikafloor® PurCem® HM-20

BUILDING TRUST

EISGREISSLER ICE-CREAM

PROJECT DESCRIPTION

In May 2016 Blochberger family in Krumbach, Austria, opened a new ice-cream production facility. The plant is located in immediate vicinity of the family owned farm delivering milk from organic farming. High quality raw materials and sophisticated production process ensure the highest quality certified final product.

Location: Krumbach, Austria

Construction year: 2016

PROJECT REQUIREMENT

The production of high quality dairy products requires very hygienic and functional facility. To be durable and easy to clean floor is a very important criteria of the flooring solution. The owners' main requirements for the floor solution were easy cleanability, thermal shock resistance, mechanical resistance and hygienic standard for a dairy processing.

SIKA SOLUTIONS

System and products: Sikafloor® PurCem® HM-20 (floor) and Sikafloor®-29 and Sikafloor®-31 PurCem® (covings).
