

SIKA AT WORK

FLOORING FOR WINERY RIVESALTES BOURDOUIL, FRANCE

FLOORING: Sikafloor® DecoDur EB-26 Quartz

BUILDING TRUST

FLOORING SOLUTIONS FOR A WINERY

PROJECT DESCRIPTION

In 2015, Winery Rivesaltes Bourdoul in France needed to have its conditioning room in the existing winery refurbished and the floors in the extension building covered with a proper flooring system. The floor area was about 12,000 m² in total.

PROJECT REQUIREMENT

The building needs to fulfil the requirements set by ICPE (Installation Classified for the Protection of the Environment). According to the regulation in wine production facilities the flooring has to be non-degradable and in homogenous color through the coating thickness. In addition the floor must be classified by the "Classement Performanciels" and "Zone Verte" certification.

SIKA SOLUTIONS

Flooring system: Sikafloor® DecoDur EB-26 Quartz

Sikafloor® DecoDur EB-26 Quartz is a hard wear and slip resistant, robust industrial flooring system with nice appearance. The system fulfils also the defined regulatory requirements of the project according to the standards.

PROJECT PARTICIPANTS
