Media Release

Released for immediate publication

Sika acquires EUCO Australia

Sika, active in the construction- and industry market, acquires the concrete admixture business EUCO from the Australian Admixture Corporation Pty Ltd.

With this acquisition Sika Australia reinforces its leading position in the construction sector. Furthermore EUCO will provide a platform from which Sika can launch the new Sika ViscoCrete®-Technology (SCC = Self Compacting Concrete) in Australia.

The agreement includes a contract to supply concrete admixtures to a local subsidiary of Holderbank.
