BUILDING TRUST

PROJECT BACKGROUND

Pelagra builders were awarded the design and construction of a heavy machinery showroom and workshop facility in Melbourne's North. Sika fibres had been used in a similar facility for the same customer in QLD, fibre reinforced slab solutions were provided to the client and to Pelagra for the Melbourne project.

Pelagra builders had never used Sika fibres before, but after a few meetings and technical presentations where Sika explained to them the time savings offered and the ease of use of the fibres, they felt comfortable enough to proceed with it.
